Sec No-1	Team No- 03	Project Title- Event Management & Ticketing Platform
-----------------	--------------------	---

1. Abstract

(Summarize the project idea, problem background, and proposed solution. Not more than 250 words.)

The Event Management & Ticketing Platform is a comprehensive, full-stack web application designed to digitize and automate the end-to-end event lifecycle—from event creation, ticket configuration, and dynamic pricing to secure booking, payment processing, and on-site validation. Built with React.js for a fast, component-based frontend and Node.js + Express for a modular, RESTful backend, the platform ensures clean separation of concerns and scalable API architecture. MySQL serves as the relational database for structured storage of users, events, orders, and transactions, while Razorpay integration enables secure, real-time payment handling with support for multiple payment methods. Upon successful booking, the system auto-generates unique QR codes for each ticket, which organizers can scan for instant verification at entry points, reducing fraud and manual checks. Nodemailer powers automated email workflows—including booking confirmations, e-ticket delivery, event reminders, and organizer alerts—enhancing user engagement and operational efficiency. With role-based access control for admins, organizers, and attendees, real-time inventory updates to prevent overbooking, and a responsive UI optimized for mobile and desktop, the platform demonstrates production-grade full-stack engineering, secure payment integration, and practical automation—making it a standout, recruiter-ready project that mirrors industry-scale ticketing solutions

2. Team Details

Roll Number(s)	Name of the Student	Signature
2520030010	G. Boomika Sre	
2520030174	P.Nehasree	
2520030282	P. Hasini	

3. Frameworks / Platforms / Software Used

Backend: Node.js/Spring Boot, Docker, Kubernetes

Database: MongoDB/PostgreSQL (distributed), Redis (caching)

Frontend: React.js

Tools: Git, Postman, Jenkins (CI/CD)

Guide Name and Signature (remarks if any) _____
